

# Bylaw No. 575 Municipal Development Plan

Presenter Name: Chris Ulmer – Urban Systems Department: Planning & Community Services Date: September 26, 2023

# Review and Update of the MDP

### Role of the MDP

- Legislated requirement of the MGA
- Last update was 2007
- Context has changed
- Balance competing interests
- Continuity across time

### **Review Process**

- Part of multi-year process
- Review and update existing statutory plans
- Internal engagement with Staff and Council
- External engagement with community to identify key directions

### SUMMARY purpose of the plan

- Reflects updates to the MGA
- Updates relative to changing context
- Key objectives focused on : Continuity Balance Protection Guidance

### AUTHORITY OF THE PLAN

- Meet legislative requirements of the MGA
- Hierarchy of planning documents

### **Section 1 – Introduction**

### 1.1, 1.2, & 1.3 - Purpose and Authority

Lays out the general nature of the plan and the rationale for the update and adoption.

### SUMMARY contextual drivers

- Population growth has slowed
- Population is aging
- Assessment base remains stable
- External drivers in energy and agriculture have local impacts
- Economic changes impact local labour force
- Contextual changes impact the development activity

### 1.4 - Community Context

General overview of the context of the community and how it has changed.

### SUMMARY PRIORITY THEMES

- Agriculture and rural character
- Natural areas
- Economic diversification
- Balanced approach to growth and preservation

### 1.5 - Community Engagement

General overview of key themes and local priorities, identified and confirmed by M.D. residents.

#### PRIORITY FOCUS AREAS

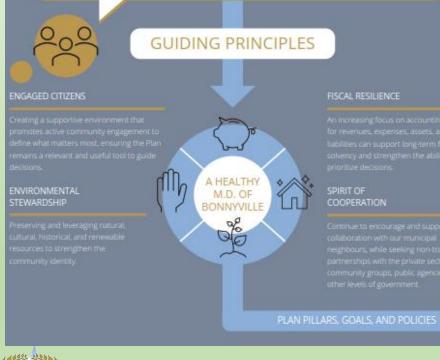

Diversify the local economy: Growing a robust economy that provides local employment opportunities, complementary to the municipality's agricultural, natural, resource, and tourism-oriented assets.

Focus on quality-of-life: Prioritizing land, infrastructure, and economic development decisions that maximize return on investment today and in the future. Enable clear expectations and consistent decisions: Allow elected officials, staff, and citizens to have a unified understanding of the decision making process and rationale.

Preserve rural character: Preserving the functional agricultural lands and natural ecosystems, is not solely for the sake of scenery and natural beauty, but also to preserve a living, working, and sustaining rural landscap that has a relationship with the community.

#### A VISION FOR THE FUTURE

"A sanctuary and a destination for people seeking a rural way of life, leverage the natural environment, embrace a balance between tradition and innovation, preserving the rural character of our land and lifestyle, commitment to the well-being of citizens, and build synergy between the natural and built environment."

### **Section 2 – Community Guide**

### 2.1 - Direction of the Plan

Builds from the community priorities from the 2007 MDP and establishes a foundation to help guide other sections of the plan.

### SUMMARY priority focus areas

- Diversifying the local economy
- Focus on quality of life
- Clear expectations and consistent decisions
- Preserve rural character

### 2.2 - Priority Focus Areas

Key priorities that balance short-term context with long-term vision.

### SUMMARY GUIDING PRINCIPLES

- Engaged citizens
- Fiscal resilience
- Environmental stewardship
- Spirit of cooperation

### 2.3 - Guiding Principles

- Establish principles of decision making.
- Recognize the flexible nature of the MDP, while rooting decisions in principles that reflect future aspirations.

#### **Strategic Directions**

- Coordinate with partners to promote a healthy economic environment
- Collaborate to review barriers and opportunities
- Review the role of tourism as part of regional economy
- Support efforts that strengthen economic diversity and business retention and expansion
- Minimize impacts of commercial and industrial siting on adjacent land uses

## **Section 3 – Policy Pillars**

### 3.1 - Economy and Workforce

Support a thriving and innovative economy through business attraction, retention, and expansion that sustains a balanced tax base.

#### **Strategic Directions**

- Promote agriculture as a key feature of the M.D. and local economy
- Limit the conversion of areas with viable agricultural operations for development
- Expand awareness of local agricultural opportunities and ag-related businesses

### **3.2 - Agriculture and Rural Character**

Protect agricultural lands and preserve the rural character.

### **Strategic Directions**

- Provide recreational opportunities and access to open spaces
- Encourage multiple use of open spaces and corridors
- Plan for parks and recreation facilities and spaces that are responsive to evolving needs

### 3.3 - Parks, Recreation, and Open Space

Provide a diverse, functional, and accessible system of parks, open spaces, and recreational facilities.

#### **Strategic Directions**

- Preserve the functions and values of critical environmental areas
- Collaborate to protect water resources
- Demonstrate environmental leadership through responsible use of the natural landscape

### 3.4 - Environment

Protect the ecological integrity of the municipality and preserve natural and environmentally sensitive areas.

### **Strategic Directions**

- Coordinate, safe, reliable, and cost-effective transportation system
- Coordinate safe, reliable, and cost-effective system of municipal services
- Consider the long-term fiscal impact of infrastructure and services with new growth and development

### 3.5 - Transportation and Servicing

Provide transportation and servicing networks that are compatible and complementary to the scale of the proposed development.

#### **Strategic Directions**

- Maintain mutually beneficial relationships
- Foster strong community leadership through a commitment to communication and engagement

### **3.6 - Collaboration and Partnerships**

Increase the capacity of the M.D. through developing and nurturing mutually beneficial partnerships.

### **Strategic Directions**

- Minimize impact on natural areas and maximize existing services
- Strengthen viability of existing hamlets
- Accommodate variety of housing options in coordination with market demand
- Strengthen resilience of the local economy

### Section 4 – Land Use and Growth Management

Growth and development that provide opportunities for diverse residential and employment opportunities and accommodate people looking to sustainably enjoy a rural lifestyle.

### SUMMARY Administering the plan

- Sequencing of development is based on private sector initiatives
- Anticipated growth can be contained within existing areas
- Proposals for new development require detailed planning

#### AMENDING THE PLAN

- Follow MGA and public engagement prior to any amendment
- Reviewed and updated as needed (at minimum 5-year intervals)
- Can be requested by municipal landowners

## **Section 5 – Implementation**

### **Administration and Amendment**

General direction on how the plan will be administered, reviewed, and amended periodically.
