Request for Decision (RFD)

Meeting: Regular Meeting of Council
Meeting Date: February 27, 2024
Originated By: Brad Ollen, Manager of Waste Services
Title: Equipment Purchase – 2025 Frontload Garbage Truck

PROPOSAL & BACKGROUND

One of our three frontload garbage trucks, unit #10540, will be due for replacement in 2025. This truck currently has over 602,000km and will be 15 years old at the time of replacement. When the equipment replacement program began, the frontload garbage trucks were given a 10-year useful life span. Through improved maintenance and truck rotation we have extended the useful life to 15 years.

With the expected 12 to 18 month wait on delivery of a new truck from the time of order, a Request for Proposals for a new frontload garbage truck was posted on Alberta Purchasing Connection on December 19th and closed on January 26th. In total, eight proposals were received.
