Date: February 27, 2024

**Dear Reeve Kalinski, CAO Al Hoggan and MD of Bonnyville Council and Meeting Attendees**

Re: Funding Request Proposal – Hearts for Healthcare 2024 Gala

---

At Hearts for Healthcare, we strive to improve healthcare in Cold Lake with the unwavering help of our community. Our aim is to ensure that everyone has access to proper care from preventative medicine to emergency services. Our main initiatives include: the purchase of medical equipment, fostering facility upgrades, supporting our healthcare professionals and the public through awareness and advocacy and medical professional recruitment and retention.

The Hearts for Healthcare Gala is our primary fundraiser, and this year it is being held on May 4, 2024 at the Cold Lake Energy Centre. The recruitment and retention of Medical Professionals to our area remains at the forefront of our efforts and a primary concern heard from our community members and stakeholders. We have worked diligently to develop a program that builds and nurtures these efforts in response to the immense need to bring physicians into our community. We have built a strong community partnership with key stakeholders, like yourselves, and feel that our Recruitment and Retention Program will continue to have great success in ensuring that everyone in our community can access a family physician, reduce emergency room wait times and relieve the pressure on our current team of healthcare professionals.

Our request to you is to maintain this collaborative community partnership that continues to have a direct impact on creating safe and healthy environments where your employees work, live and play. We are asking for your consideration of commitment to the following:

1. Superior Level Support for the purchase of equipment from Our Healthcare Wishlist.  
This list includes items requested from the many healthcare facilities/departments that we support including, Cold Lake Healthcare Centre, Cold Lake Community Health Services (Allied Health, Public Health, Long Term Care, Home Care, Mental Health & Addictions), Cold Lake Primary Care Network including the Elizabeth Metis Settlement Outreach Clinic and Cold Lake First Nations Health Centre. Superior Level Sponsorship includes 2 tables of 8 at the event.
2. In-Kind contribution of the following MD related packages for our Silent Auction:

- a. Kinosoo Ridge Ski Resort Package: Family of 5 Pass with gift card for The Ridge Restaurant
  - b. MD Campground Package: full service weekend camping at one of the MD Campgrounds and bundle of firewood
3. Attendance to the Hearts for Healthcare Gala on Saturday, May 4, 2024. (2 Tables of 8)

Your collaboration and support of these programs will have a substantial and direct benefit to our Community.

**Serviceable Area:**

\*Cold Lake's population is approximately 17,000 people

\*The Cold Lake Healthcare Centre services a surrounding area of more than 40,000 people that utilizes our hospital programs and services

\*The catchment area that utilizes our healthcare facilities includes: Cold Lake, 4 Wing Cold Lake, Bonnyville, St Paul, Elk Point, communities into Saskatchewan, also our 12 surrounding indigenous communities including: Cold Lake First Nations, Elizabeth Metis Settlement.

**Partnership Successes:**

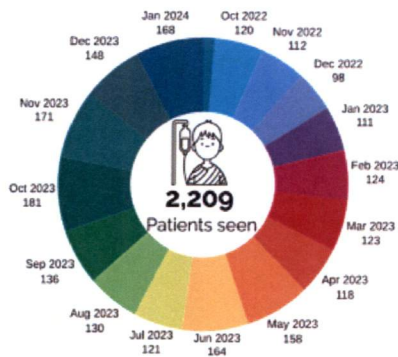

\*5 new physicians joined our team last year partly due to community stakeholder investments in our Attraction and Retention Programs and the purchase of equipment that aids in these professionals having the necessary tools to do their jobs safely and effectively.

\*Your contribution in 2023 Gala helped us purchase specialty equipment for the Endoscopy Program at the Cold Lake Healthcare Centre that provided our surgical team with the necessary tools to allow patients to receive diagnostic and screening services close to home. It resulted in lower wait times for surgeries by decreasing turnover time between cases and allowing more surgeries per day, decreased wait times and reduced stress on the system, promoted continuity of care when the patient can receive their assessment, treatment and recovery at home. The event raised \$340,000

\*Your contribution directly resulted in the purchase of a P500 Therapy Surface for our residents in Long Term Care. This equipment helps patients who are unable to leave their bed or have wounds or skin break down. This surface helps address and prevent shearing, friction and pressure to skin surfaces, thus preventing wounds and infection.

\*Your support in 2021 into the Cold Lake Primary Care Network helped purchase an Infusion Pump for the new Infusion Clinic established in September 2022. This essential addition decreased wait times for patients receiving iron infusions and decreased stress on our Emergency Room.

**247** Total Infusion Clinic Days from September 2022 - January 2024

The average patients seen per day is **9**

The average rate of No shows for Infusion appointments is as low as **6%**

**95%** Are attached to a Primary Care Provider

We have caught up on the 6-plus month backlog of referrals and saw several new referrals each week.

**774** Infusions received by prenatal patients

**34** Pediatric patients seen

**20** Military patients seen not tracked from September 2022 - March 2023

**61** Bonnyville patients seen

The Cold Lake PCN has been able to increase the amount of Iron Infusion clinics from 1-2 days per week to 3-4 days per week.

And from 5 Iron Infusions per day to 9-16 Iron Infusions per day.

September 2022 - January 2024

\*Your support of the 2022 and 2023 Sparkle in the Park helped us in showing our appreciation to our community, spreading kindness and improving mental health awareness. This year the event saw 3200 vehicles go through your campground in 6 days, raised \$30,000 for mental health initiatives and had over 55+ businesses, organizations, schools, sport groups and individuals signed up to add their sparkle to the event

### Community Struggles:

\*accessibility and inclusivity are two major factors that our Indigenous communities face, investments in programs such as CLFNS Palliative Care and Elizabeth Metis Settlement Outreach Clinic ensure that members can easily access personalized and compassionate care, that services offered are culturally sensitive and respect the values and traditions community members. These pieces of equipment will significantly improve the quality of life for community members.

\*recurring overnight ER closures due to staff shortages. Attraction and retention efforts not only improve the patient experience and well-being but the mental and physical health and well-being of staff

\*patients sometimes need to travel great distances for services; losing wages, social support and time. Programs like the CLPCN Infusion Clinic allow these patients to access a safe and comfortable space to receive their treatments close to home.

We hope that you will consider helping us in our continued efforts in nurturing and encouraging growth within our current healthcare team by providing them with the appropriate resources, equipment and support staff.

Thank you again for your support.

Sincerely,

The Hearts for Healthcare Board of Directors

## APPENDIX B

### WHO WE ARE

A not-for-profit organization formed to improve local healthcare. We work with all branches of healthcare in the community to purchase medical equipment, provide facility upgrades and recruit healthcare professionals.

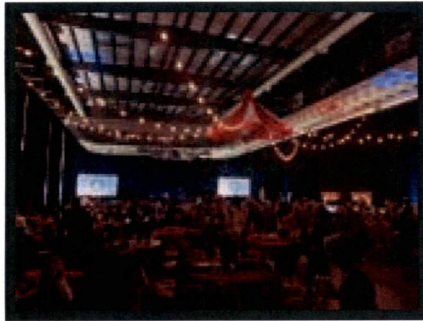

### OUR WHY

We believe everyone deserves access to proper healthcare from Emergency Services to Preventative Care.

### OUR ACCOMPLISHMENTS

**Recruitment & Retention:** 4 new physicians  
**Equipment:** gastroscope and specialized endoscopy items  
**Committed funds:** \$175,000 for new equipment  
**Fundraisers:** 2023 Gala raised \$340,000

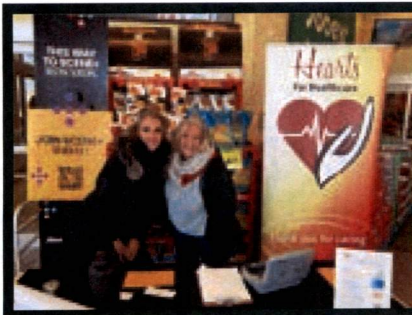

### HOW WE MAKE IT HAPPEN

**ANNUAL GALA**

**SPARKLE IN THE PARK**

**WELLNESS RAFFLE**

**HEARTS FOR HEARTS  
CAMPAIGN**

**MEGA BOUNCE**

**AND YOU!! OUR INCREDIBLE COMMUNITY!**

# HELLO AGENTS,

Please join us for our Annual Hearts for Healthcare Gala on  
**SATURDAY MAY 4 2024** at the Cold Lake Energy Centre.

**The mission** is to ensure that everyone in our community has access to proper care. You are tasked with assisting us in unraveling the mystery surrounding the recruitment of healthcare professionals and the acquisition of much needed medical equipment.

By what means can you lend your unwavering assistance, 007?

# APPENDIX C

2023-2024 HEALTHCARE WISH LIST					
	DEPARTMENT	EQUIPMENT	SPONSORSHIP TOTAL	DESCRIPTION	BREAKDOWN
1	CLHC-ER	Ultrasound Equipment Storage Cabinet	\$10,500.00	Ultrasound Probe Storage System provides a safe and sanitary storage environment for your disinfected ultrasound probes. A fan draws air through a replaceable HEPA filter providing a continuous flow of clean filtered air allowing safe and clean storage. The easily accessible filter is located on top of the Storage System. The Storage System's locked door provides secure and safe storage. The filter life is monitored, and the indicator light will signal when a replacement filter is required	
2	CLHC-Acute Care	Drager Jaundice Meter	\$9,500.00	Having a Jaundice meter for the Acute Care OBS department would save time when diagnosing newborn babies who have jaundice. This is a non-invasive piece of equipment that will detect jaundice without having to prick the babies for blood samples. This will also assist with bed movement when mom and babes are only waiting on bilirubin results prior to discharge as the results will be immediate with the TCB.	
3	CLHC-ER	Stryker Electric Stretcher	\$12,500.00	Reduce physical strain on clinicians, enhance comfort during patient transport	
4	CLHC-Acute Care	Sit to Stand Patient Lift	\$6,500.00	*Safely moves the patient forward and upward in a natural movement while leg muscles and balance are exercised, providing a secure and active experience. Indoors and out. Currently acute care does have one sit to stand. However with increase numbers in ALC patients and patients awaiting placement, we have found that more and more patients are requiring the sit to stand lift, often at the same time. A second sit to stand lift will help improve patient care and allow us to toilet or transfer more than one patient at a time for those requiring sit to stand lifts.	
5	CLHC-ER	Glidescope	\$27,500.00	The Glidescope is a portable and easy to use, high resolution video system that is ideal for use in small spaces. It is routinely used for emergency procedures and whenever your environment demand mobility. This would make it so much easier to use in the Emergency department.	
6	CLHC-ER	Stryker Big Wheel Stretcher	\$8,800.00	Reduce physical strain on clinicians, enhance comfort during patient transport	
7	CLHC-Acute Care	Broda Chairs x 2	\$5,000.00	Chair helps with patient care by providing a safe, comfortable and stable seat outside of their hospital bed. Swing away removable arm supports, calf and shoulder support. Makes it possible for staff to care for patients in an upright position.	2 UNITS X \$2500 = \$5000
8	CHS-Long Term Care	Spalding Wander Guard System	\$10,000.00	We currently have residents who are cognitively impaired, and they require additional security. While we are a secure unit, we have a fire door that cannot be locked due to safety reasons. These residents who wander are often exiting through this door potentially putting themselves at risk, especially with winter approaching. While our staff do their best to monitor the residents, there are 31 residents that they are responsible for, and they cannot be everywhere. A Wander Guard would lock the fire door as the residents approach it, protecting them from exiting and putting the staff's minds at ease.	Additional security bracelets are \$250 each, comes with 3
9	CHS-Long Term Care	P500Hillrom Therapy Surface	\$10,000.00	We presently have many residents who are not able to move themselves due to medical conditions while they are in bed and these mattresses/beds help to prevent pressure ulcers/ wounds (bedsores) from forming on the residents. We presently rent many of these beds from the distributor to meet the needs of our residents and would benefit from owning our own. Medical grade air mattresses are crucial for our residents to prevent pressure ulcers which could cause infections, pain and discomfort, lasting psychological effects and to and including death.	
10	CHS-Home Care	Stethoscopes	\$525.00	Nurses use their stethoscopes daily for patient assessment & treatment and need to be replaced to function properly.	3 UNITS X \$175 = \$525
11	CLFNS Health Centre - Palliative Care	Manual Hospital Bed	\$2,500.00	Part of loaner program, to offer patients a comfortable and dignified environment for their final days. Patients can receive necessary care at home.	

12	CLFNS Health Centre - Palliative Care	CADD Solis Pump	\$12,000.00	Vital in managing pain effectively in palliative patients within a home setting. Healthcare professionals may administer pain relief accurately, ensuring patients remain pain free and comfortable throughout their journey towards end of life.	
13	CHS - Public Health	Electronic Symphony Breast Pump with Premie Initiation Card and Carrying Case	\$3,200.00	Breast pumps are regularly signed out to mothers needing them. We lend them out for 2 weeks at a time. They are often all signed out. We occasionally have a waiting list for pumps.	
14	CHS - Public Health	SaniCoat Armrest Cushion for Blood Drawing Chair x2	\$700.00	FOR 2 ARMREST CUSHIONS (\$350 EACH) Arm rest cushion for blood draw chair. The blood draw chair that Hearts for Healthcare received last year is used daily for multiple appointments per day. An armrest cushion would help to keep the are stable in the correct position for blood draws. We are also holding outreach clinics in the community - for example we go to regularly to homeless shelters to test and treat for STIs. An arm rest cushion would assist the nurses in positioning clients arms for blood draws	2 UNITS X \$350 = \$700
15	CHS - Allied Health	Bariatric Wheel Chair & Cushion	\$5,000.00	Currently there is only one bariatric size wheelchair in the community in the homecare loaner pool. When the bariatric wheelchair is unavailable in the community it impacts our ability to help facilitate discharge or to provide clients with a safe option for short term loan while they are awaiting a wheelchair from AADL. Infection control standards recommend that equipment is not shared between community and facility.	
16	CHS - Allied Health	Rec Therapy Ipad & Cover	\$850.00	The previous iPad purchased with donation funding in 2017 it is no longer operational. The iPad is used for engaging residents in cognitive programs, connecting residents with church and other faith services, and facilitating face time with family and friends virtually. All of these activities contribute to the wellness and well-being of our Continuing Care residents.	
17	PCN-Elizabeth Metis Settlement Clinic	Indigenous Outreach Program	\$7,500.00	BP Vital Machine & Stand, BP Cuffs, Tablet & Stand, Software for tracking, Pediatric Pulse Oximeter, Medication Cart. New Initiative to offer primary care in Elizabeth Metis Settlement. To facilitate programming offered every other Wednesday within a clinic space.	BP Vital Machine = \$4000 BP Cuffs = \$200 Tablet = \$1000 Software = \$500 Pulse Oximeter = \$100 Medical Cart = \$1700
18	PCN	General Equipment: 24 Hr Blood Pressure Monitoring and ABI (Ankle/Brachial Index) Testing	\$6,000.00	24hr Blood Pressure Machine & Pouches. ABI Cuff Kit. For essential, highly referred programming for our community. Home Care referring patients for these services.	BP Machine = \$3500. BP Pouches = 5 x \$150= \$750 ABI Cuff = \$1750
19	PCN	Women's Health Program	\$54,000.00	5 x Exam beds for both Hospital and Kingsway locations and 2 for Elizabeth Metis Settlement Outreach Clinic. 4 x Exam Light and Bed Drawer. Other 3 beds For Well Women Program: currently all of the member clinics refer their patients to the PCN for Pap tests and Pre Natal: see patients from week 8-30 gestation	Exam Beds = 5 x \$9000 = \$45000 Exam Lights = 4 x \$2000 = \$8000 Bed Drawer = \$1000
20	Gynecology	Laparoscopic Hysterectomy Equipment	\$14,500.00	A regional initiative, benefit the entire Lakeland/North East Zone including the surrounding Indigenous Nations and Settlements. Closest referral location is Edmonton, patients undergoing surgery could recover at home. We have a trained Gynaecologist currently at CLHC this specialization would allow her to grow her patient panel and set the CLHC as first class facility	
TOTAL SPONSORSHIP VALUE			<b>\$207,075.00</b>
