RE: Recognition for Community Disability Service Professionals Week

May 20 – 26, 2024 marks Community Disability Service Professionals Week. This week is a provincially declared week-long celebration of Albertans who dedicate their professional lives to empowering and supporting persons with disabilities.

As advocates for the disability community, we believe it is vital to acknowledge and celebrate the contributions of professionals who dedicate their time and expertise to supporting persons with disabilities. This week presents a unique opportunity for businesses like yours to show appreciation for these individuals and raise awareness about the essential services they provide.

We are exploring various initiatives and collaborations to commemorate this week effectively, and we would be thrilled to involve your business in our efforts. Whether it's through social media campaigns, community events, or other creative means, your participation could make a significant impact in honoring these dedicated professionals within our community.

Your involvement would not only demonstrate your commitment to diversity and inclusion but also showcase your support for the invaluable work carried out by these professionals. Thank you for considering this opportunity to join us in celebrating and acknowledging the contributions of community disability service professionals.

Warm regards,
