Learn More About Pediatric Rehabilitation: Child and Youth Development Resources

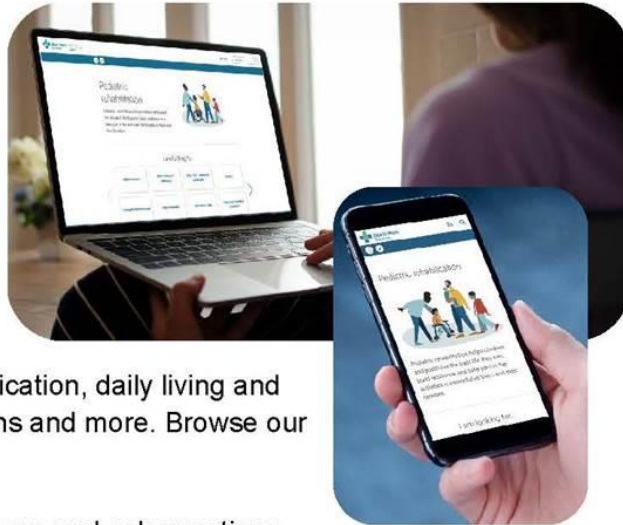

Caregivers, parents, and those who work with children and youth from birth to age 18 are invited to explore an exciting new platform to learn directly from Alberta-based pediatric rehabilitation experts:

AHS.ca/PedRehab

AHS.ca/PedRehab offers information and advice on a wide range of child development topics including communication, daily living and gross motor skills, behaviours, emotions and more. Browse our resources or use the site to:

- Register for webinars to learn more and ask questions about the most common challenges identified by parents and caregivers.
- Find a call-in advice line for parents and caregivers.
- Connect to local services for children and youth.

All AHS resources are available at no cost.

Pediatric Rehabilitation helps children and youth live well, build resiliency, and take part in activities meaningful to them and their families.
