Subject: Sign-up Today for LICA's Riparian Health Campaign!

Hello, LICA Member,

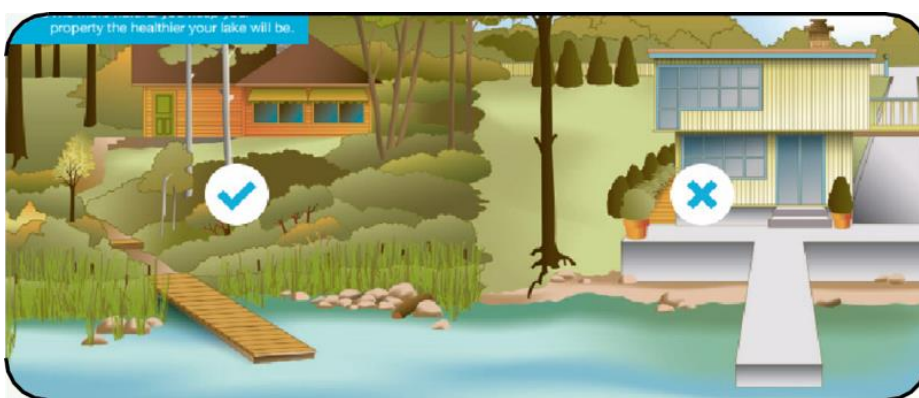

We are excited to launch our Fall [Riparian Health Campaign](#) on **September 9th**! This NEW Campaign was developed to support community-based riparian restoration and to increase the knowledge and awareness of riparian areas throughout the LICA region. **Anyone with a riparian area on their property is encouraged to sign up!**

A riparian area is the transitional area from the water's edge to surrounding upland areas. They build and maintain banks, buffer and filter water, trap, and store sediments and so much more to benefit healthy aquatic systems. Those who sign up for the campaign will be given seedlings for **FREE** to support restoring and enhancing riparian areas. In addition, various educational resources, and a seasonal lawn sign to display their commitment and support further awareness of the campaign, will also be provided.

We will have Wild Rose, Saskatoon, and Red Osier Dogwood seedlings ready on September 9, 2024, for participants to pick-up at the LICA office. If you are interested in signing up, please complete the attached form and send it to watershed@lica.ca to save your spot!

This Spring, 720 seedlings were planted by campaign participants to support riparian restoration in the LICA region! We can't wait to offer the second-round next week to you all!

We look forward to working with you to support healthy riparian areas on your property!

Kayla Hellum
Environmental Coordinator

Office: (780) 812-2182

LICA – Environmental Stewards recognize that we operate and benefit from the traditional lands of the Denesųtiné (Dene), Nehiyaw (Cree), and the Métis Homeland. We honour the privilege to share these lands and recognize our duty to participate in truth and reconciliation. As members of Treaty 6, 8, and 10, and the Otipemisiwak Métis Government Districts 12, 19, and 20, we are committed to fostering long-term relationships grounded in trust and mutual respect. We pledge to uphold the rights and honor the traditions of the Indigenous Peoples who have stewarded these lands for generations.

Sign Up to Commit to a Healthy Riparian Area on Your Property!

I commit to taking action to help improve riparian area health within the LICA Region!

I will:

- Commit to learning more about the health of riparian areas on my property.
- Commit to conserving and restoring the riparian area on my property.
- Display a lawn sign near the riparian area on my property to promote further awareness of healthy riparian areas.
- Plant the 10 seedlings provided by LICA in my riparian area.
- Send LICA a photo of the trees planted.
- Return my lawn sign at the end of the season during sign pick-up or to the LICA office.
- Tell my neighbors about the importance of riparian areas and their role in watershed health.
- Complete a survey in the fall to share my riparian area conservation and restoration success!
