Re: Letter of Support – Green and Inclusive Community Buildings Grant

Your Worship ^{Barry} Barry Kalinski,

The City of Cold Lake, like many other municipalities across Canada, is preparing its submission to the Green and Inclusive Community Buildings grant. As you are likely aware, the deadline for this submission is October 16, 2024.

The City of Cold Lake has confirmed that its submission for an Aquatic Centre at the Cold Lake Energy Centre is a good fit for this program, and we are confident in the application we have crafted for submission. As part of these submissions, we hope to include a letter of support from the M.D. of Bonnyville.

For many years, we have heard from our residents that a community pool is in great need, and we are excited to take this important step towards making this project a reality. We know that this new facility will enhance the region's current recreational options and will be a welcome addition to our regions recreational and cultural assets. The City of Cold Lake is well positioned for this project, having completed our design concept and having begun the process of preparing our operational budget to accommodate the cost of the facility once complete.

Please reach out to me directly, or contact Chief Administrative Officer, Kevin Nagoya, at 780-594-4494 ext. 7930, or via email at knagoya@coldlake.com, if you have any questions.

We look forward to your support.

Yours sincerely,

Craig Copeland
Mayor
