

2024 4th Quarter Progress Report

Waste Services

LANDFILL VISITORS

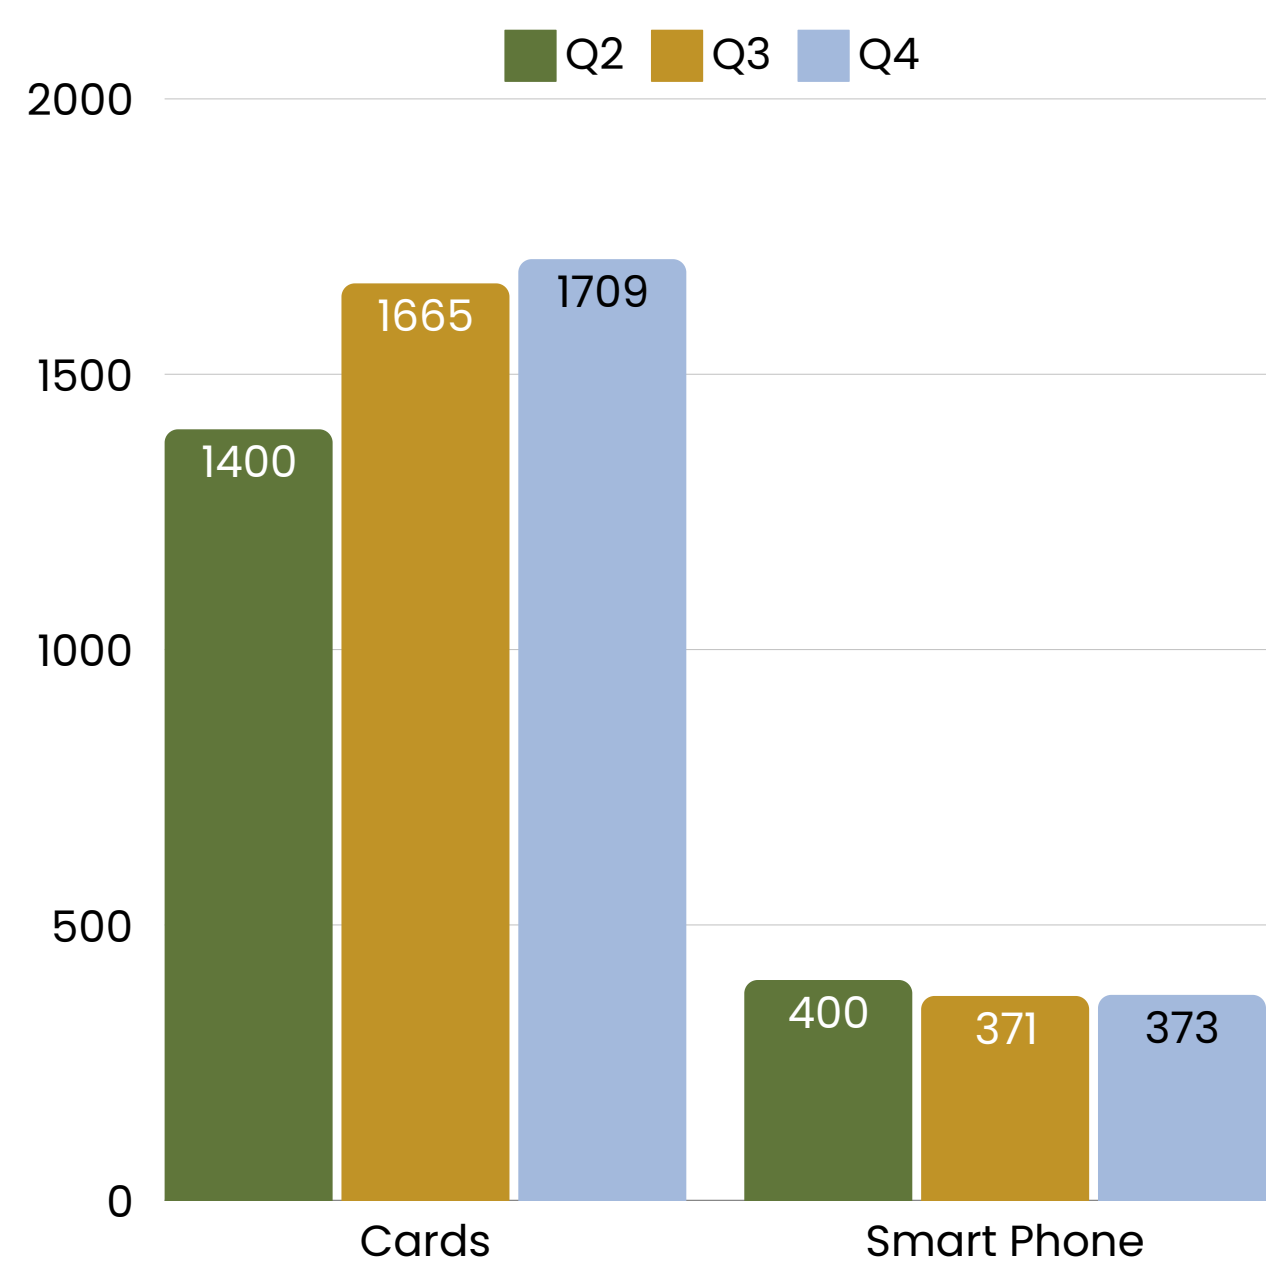

PROGRAMS & UPDATES

Beaver River Regional Waste Management Commission

The compactor trailer is still awaiting repairs. 18 waste bins are placed at landfills to compensate.

Ardmore Landfill Automated Gate System

1709 cards and 373 smart phone apps have been distributed to residents for the Automated Gate System.

Cold Lake Landfill Waste Account

The program is working very well for both MD residents and the City of Cold Lake. 282 accounts have been registered.

Extended Producer Responsibility

Meetings have been on-going for the EPR Program. Phase 1 will come into effect on April 1, 2025. As an opt-in community with depot collection only, we have yet to receive a contract offer.

School Presentations

Waste and recycling presentations and tours were given to 199 grade 4 students from Ecole Des Beaux Lacs, Notre Dame Elementary, and Nelson Heights School.

Landfill & Bin Site Inspections

Waste staff complete inspections of all landfills and bin site locations on a quarterly basis at the minimum.

La Corey Landfill Scale Design

Parkland Geo completed the initial scale design and layout for the La Corey landfill.

Crane Lake East Bin Site

The Crane Lake east bin site was repaired with crushed concrete in October.

Therien Fridge and Freezer Pad

A fridge and freezer pad was constructed at the Therien Landfill to help differentiate the units from the rest of the metal pile.

Therien Lots

The Waste Services team cleaned-up two vacant lots in Therien for Planning and Development.

Shop Move

Waste staff completed moving our operations into the new shop in the Aurora Borealis Subdivision in October.

Electrified Parking Rail

The Infrastructure Services team assisted us install a parking rail at the new Environmental Services shop.
