

Municipal District of Bonnyville No. 87

Request for Decision (RFD)

Meeting: Regular Meeting of Council
Meeting Date: June 24, 2025
Originated By: Monty Doonanco, Director, Infrastructure Services
Title: Municipal Road Development and Construction Standards

PROPOSAL & BACKGROUND

Infrastructure Services is requesting to create an additional classification of road to the Municipal Road Development and Construction Standard that is referenced in Policy 4A.001 – Road Construction and Development Policy.

The addition will be, “Class 7 – Non-Standard Road” (APPENDIX A).

DISCUSSION ON BENEFITS, DISADVANTAGES & OPTIONS

A non-standard road is any roadway that does not meet the applicable design, construction, or safety standards established by authorities such as Alberta Transportation and Economic Corridors, Transportation Association of Canada (TAC), or the MD’s municipal servicing standards and/or MD Policy.

A non-standard road may be permitted or accepted within the MD where full compliance is impractical, cost-prohibitive, or unnecessary due to context, provided that appropriate risk mitigation (i.e., maintenance) and legal obligations are in place.
