Subject: LICA: Engagement Session RE: Alberta Air Hub

CAUTION: This email originated from outside the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hello LICA Members ,

Please find below an email we received from Alberta Airsheds Council requesting participation in a virtual engagement session regarding the Alberta Air Hub.

Information regarding dates and registration is listed below.

We hope that you will consider joining either the July or August virtual sessions with your valuable input.

Thank you for your interest and consideration.

Alberta Airsheds Council invites you to participate in a virtual engagement session on the Alberta Air Hub – a new, digital knowledge sharing resource that would help municipalities, air practitioners, and Airshed members:

- understand best practices and proven strategies for air quality management;*
- connect with air quality professionals and environment managers; and*
- learn about initiatives to improve air quality and mitigate major air quality events.*

The virtual session will provide an opportunity for you (and others who work or have an interest in air quality) to share your preferences for the hub.

Session Details:

- Date and Time: **July 22 from 1:30- 2:30 p.m. or August 20 from 1:30-2:30 p.m.***
- Location: Microsoft Teams*
- Duration: 60 minutes*
- Format: The session will include a brief introduction to the project, and then a Q&A where your inputs will be gathered through a verbal discussion, polls, and chat entries. Breakout rooms may be added if there is a significant number of participants.*
- Please register for the meeting date that is most convenient for you.*

Why Your Input Matters:

The Alberta Air Hub would be the first of its kind in our province. A similar resource, the UK Air Quality Hub, offers air practitioners the following supports:

*a library of publications, case studies, and practical local air quality management tools;
help to create robust air quality policies and effective actions to improve air quality; and
a place to network with fellow air practitioners, upskill and develop staff.*

By participating in a session, you'll help us better reflect the needs and priorities of municipalities, air practitioners and Airshed members as we develop an Alberta Air Hub.

If you can participate, please register here:

July Discussion Session: <https://events.teams.microsoft.com/event/f3be53d0-80de-478a-8c53-25166ffba558@0fb7cbb8-fb51-40e1-ba1a-d5addcf00e72>

August Discussion Session: <https://events.teams.microsoft.com/event/d0342e2e-2abb-4e97-9ebb-a2fcfd2e359b@0fb7cbb8-fb51-40e1-ba1a-d5addcf00e72>

If you are unavailable but interested, Alberta Airsheds Council will be hosting additional sessions in September (to be announced) Alternatively, you may share your thoughts in our Alberta Air Hub Engagement survey, by clicking [here](#).

Should you have any questions or need additional information, please reach out. For more information about the Alberta Airsheds Council, go to albertaairshedsCouncil.ca

We look forward to your participation in shaping the development of an Alberta Air Hub!
